# Margot

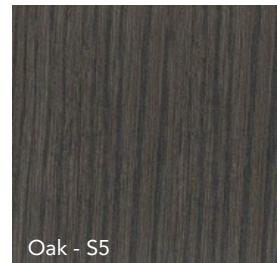

# Margot

Margot stands out for its sculptural silhouette and quiet strength. The solid top available in 120 cm or 150 diameters, is supported by a bold, interlocking base that offers both visual rhythm and structural integrity. The angled planes of the pedestal create shifting lines and shadows, giving the table a dynamic presence from every angle.

Available in oak with a choice of our signature finishes, Margot is designed to anchor a room without overpowering it—elegant, architectural, and unmistakably modern.

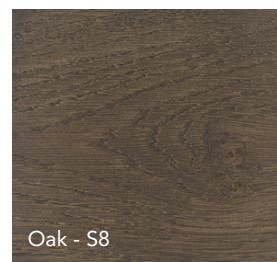

Please note that subtle variations in grain, texture that may be visible on the base are not flaws, but hallmarks of natural handcrafted wood.
